# NOBLE BEAT GROSCH

THE "KID" WON THE CONTEST IN SHORT ORDER LAST NIGHT.

Men Went at Each Other "Hammer and Tongs" and Cast All Science to the Winds-Bont Did Not Last Two Rounds.

The contest between "Kid" Noble and Frank Grosch at Strope's hall last night was a short affair. It was satisfactory to the spectators, who expected a whiriwind match and the men mixed things up

Neither displayed much knowledge of the art of boxing, but they went at each other in a manner that was quite a contrast to many contests that have been pulled off here recently. Both men looked strong and muscular. They were very wild and it soon became evident that the mun who landed the first hard blow would win. There were all kinds of open-ings awaiting a clever boxer, but the men went at each other without looking for openings or anything

The first round was a collection of wild lunges and swings and both men were working their arms use-lessly. Greech was the wilder of the two. When the

ressly. Grouch was the wilder of the two. When the round ended, honors were even.

The men started the second round more slowly, but they each landed several times. Noble landed a heavy left on Grouch's kidneys and he fell to the floor. He soon srues, but was grougs and it was but a lew seconds before the "Kid" landed on the point of his opponent's jaw. Grosch was again knocked down and the referre said that Noble had won the contest on "boths."

Morrison and Brady, the one-armed boxers went six rounds before the main bout. They put up a Circur exhibition.

The contest was fought as well as the principals knew how and would have been interesting if it had lasted longer. However, there was no complaint from the speciators, except the usual "old sport grafters" who did not have a "mitt" in the deal.

# TOMMY RYAN BESTS CRAIG.

The "Harlem Coffee Cooler" Was Never in the Fight.

NEW YORK, Sept. 18.-Tommy Ryan, the Syracuse middleweight pugilist, gave Prank Craig, the Harlem "Coffee Cooler," a terrible drubbing before 7,000 persons at the Coney Island Sporting Club to-night. Standing of the Clubs.

# GUS RUHLIN GOT DECISION.

Defeated Jack Stelzner in Seven Rounds at Denver Last Night,

DENVER, COL., Sept. 18.—Gus Ruhlin defeated Jack Stelaner in a contest to-night before the Olympia Athletic Club, the decision being given in his favor in the severath round.

Stelaner, though game, was clearly too weak to last much longer, and referee Masterson's decision was heartily applauded by the crowd.

Ruhlin gained a decided advantage at the outset and had his own was most of the time afterwards, but at that could not knock out Stelaner.

In the beginning Ruhlin emitted the customary sparring and rushed at Stelaner, knocking him down with a stiff left. Jack was up again in a few seconds and Euhlin with another rush floored him again. Stelaner remained down eight seconds and by clever ducking and dedging saved himself further punishment until the beil rang.

After this the fight was onesided. Ruhlin did most of the leading, though occasionally Stelaner would raily with a good punch. In the fourth round Ruhlin hit Stelaner exactly fourteen times on the face and law, though not fleering him.

In the fifth Stelaner went down from a right uppercut, and was saved by the bell. Again in the sixth he was floored, and, getting up, missed a lead and fell from weakness. DENVER, COL., Sept. 18.-Gus Ruhlin defeated

re was hoored, and, getting up, missed a least and reli from weakness.

After Rublin had floored Jack twice in the seventh the fight was stopped and the decision given to Rublin. Stellner was badly punished.

In the preliminary, Willard Bean, of Salt Labo, the "preacher pugifist." knocked out Billy Layton, of Denver, in the third round.

financial backing. In Chicago their strength is not known further than that Ansen is the king pin. Buffalo and Detroit are doubtful quantities, and the league says it will take whichever is the most promising in finances and gruunds. In New York it was broadly hinted the new league would play either on Manhartan field or on a new park which they have in sight. In Philadelphia they kay they have a park and good backing.

In Washington they say they expect to use the old baseball park and there, too, they assert they have good backing. The fourth city in the East is either Boston or Baitimore, with the probabilities in favor of the last named, McGraw and Robinson will engineer the new league club if the organization decides upon Ballimore. It is said Anson will be the first president of the new organization.

Reports were current that leaders in the new association and the National League had provisionally desimed it best to work on a basis of harmony instead of antagonism. These reports are strongly doubted.

John T. Brush, a power in the National League, announced that he favored a modification of the draft rule—a concession to the Westefn League evidently launched with a view to keeping the support of that organization in case of emergencies.

Coneral admission will be placed at 25 cents instead of 59 cents, the latter price prevailing in the National League.

Chicago 10, Brooklyn 10. BROOKLYN, Sept. 18.—Chicago played Brooklyn to a standstill to-day. The Brooklyns had a lead of 8 to 2 up to the seventh, when the Chicagos hammered Kennedy out of the bex, and then took the lead by 10 to 8, when Dunn went into the box in the eighth. A single by Dunn, Kelley's triple and an out tied the score in Brooklyn's half. Then the game was called. Lange's hitting was a feature. Two games

SHAMROCK HAS A TRIAL, The Irish Boat Showed Great Speed Yesterday.

NEW YORK, Sept. 18 .- The Shamrock had another all trial outside of Sandy Hook to-day, starting from the Scotland lightship and sailing over a fifteen mile course to the windward and return. The Irish boat course to the windward and return. The frish boat certainly showed great speed, especially on the run home in an increasing breeze, making the last fifteen miles in one hour and fourteen minutes, a remarkable performance considering that her sheets were apparently trimmed well in, while the course was a broad reach. Her beat to the mark was also made in good time, although the last five miles were sailed with sheets lifted as the wind shifted from southeast to south, letting her up in good shape. She used to south, letting her up in gold shape. She used her now mainsuil and aluminum gaff and seemed to carry her soil very well.

The challenger started out from her borth inside the Hook shortly siter 10 o'clock, being towed out by the tug Lawrence. An hour was consumed in getting the law in the control of the law in the point of the New Haven road had all law in the law in t o south, letting her up in good shape. She used ser new mainsail and aluminum gaff and seemed to The trial was one of the most successful that the Shamrock has had and all on board seemed to be well satisfied with her performance. She will probably go out again to-morrow.

Memphis Meets the Last Cut of the Burlington's-Effect of the Reductions From Chicago and St. Louis.

CHICAGO, Sept. 18.-Ronds running out of Chicago have become involved in the rate war on packing house products, cut rates on which have been in effect for some time from Omaha and Kansas City, and to-day reductions of from 6 to 10 cents per 100 pounds from Chicago on packing house products were announced, to go into effect September 20. A meet-ing of the trans-Missouri lines was held to-day is an endeavor to effect a restoration of rates, which are being badly cut from the Western points. It was stated, after the meeting, that no satisfactory arrangements had been agreed upon and the an-nouncement of the cut in rates from Chicago was made soon after.

The rate war, which is practically between the Chicago, Burlington & Quincy and the Kansas City, Fort Scott & Memphia roads over the Kansas City For Scott & Memphis roads over the Kansas City-Omaha differentials, is now decidedly interesting. Rates on packing house products, from Omaha and Kansas City to Ohio river points have now reached rock bottom, and another reduction by either of the lines would almost give the packers at Missouri river points an opportunity to ship their products to the Southeast free of charge.

Southeast free of charge.

The Memphis informed the interstate commerce commission yesterday that, effective September 21, it would reduce the rate on packing house products from Kansas City to Memphis to 2 cents per 100 pounds. The present rate via the Burlington from Omaha is 5 cents and from Kansas City 2 cents per 100 pounds to the Ohio river.

It is expected that the Burlington will, on receipt of official notice of the action of the Memphis, cut off another 3 cents from the Omaha rate, which will necessitate the Memphis wiping out its rate entirely, and the Burlington will have to do likewise in order to reduce the differential. The rate from the Ohio river to Memphis is 4 cents per 100 pounds, and it is said the lines South of the Ohio river are bearing their share of the burden. If this is true, the Burlington will be able to reduce the rate another 3 cents and prorate the remaining 3 cents between itself and the line from St. Louis to Memphis, which will leave nothing after the bridge toll is paid.

The rallroad men are looking askance and wondering where it will all ond. The action of the Southeastern lines in cutting the rate from Chicago and St. Louis is regarded as a move on their part to give those cities an apportunity to get not the Southeaster lines in cutting the rate from Chicago and St. Louis is the rates will never be restored to their former basis.

### May Mean Absorption.

May Mean Absorption.

NEW HAVEN, CONN., Sept. 18.—The matter of choosing a successor to President Clark, of the New York, New Haven & Hartford road, is now in the hands of the standing committee, consisting of President Clark, Vice President John Hall, William Rokefeler, J. Pierpont Morgan, of New York; George J. Brush, of New Haven; Heary C. Robinson, of Hartford; Charles F. Choate, of Boston, and W. D. Bishop, of Eridgeport.

The appointment of a successor will be a satisfactory one to both President Clark and the New York interests. There is now no friction between what have been styled the Clark and the Vanderbilk parties in the directorate, and there will be no difficulty, it is said, in choosing the man for the place. This may be the present vice president of the road, Judge John Hall, or it may be General Manager Chamberlain, or one of numerous railroad men, among whem are President C. S. Mellen, of the Northern Pacific, who was at one time vice president to the New Haven road and would like to return as its president; President Lucius Tuttle, of the Boston & Maine, or a man more closely interested in the New York Central than either of these.

A prominent stockholder of the road in this city is suthority for the statement that Mr. Clark's withdrawal means the absorption of the New Haven road by the Vanderbilt system, and that developments in the directorate in the near future will prove this beyond a doubt.

Cornelius Vanderbilt owned upward of a million dollars of the stock of the road, and the repassing of this great interest into the Vanderbilt family means, it is said, a close relation between the Vanderbilt system and the New Haven property. However trus this may be, it is certain that interesting developments are leoked to secure in the immediate future by the New Haven road sickholders, and sweeping changes in the makenp of the directors would not be a surprise to anyone.

It is believed here that the day of New Engiand control of the New Haven road will pass away with Mr. Clark's retirement, and

Texas Canned Goods Rate.

AUSTIN, TEX., Sept. 18.—The following emergency rate was issued to-day by the railroad commission:
"In view of positive information received by this commission to the effect that a reduction of 5 cents per 100 pounds in the rates on canned goods in carloads shipped to points in Texas from points in other states will take effect September 21, and as such reductions will operate as an unjust discrimination against the business interests of many cliticons and railroad companies of this state, the commission hereby directs and orders that the following rates be adopted for the transportation of canned goods in carloads to points in Texas common point territory, only in cases where they are higher than existing rates: From Houston, 27 cents; from Galveston, 30 cents per 100 pounds. The rate of 27 cents shall apply as maximum between the points to which it applies from Houston. Rates from or to points in differential territory shall be determined by employing the current fifth class differential rates as set forth in section 3 of general tariff of class rates No. 2 under the rules governing the same in connection with the rates established by this order.

"This order shall take effect September 21, 1859, and the rates fixed by it shall remain in force until changed or canceled by the commission." Texas Canned Goods Rate.

EATONTON GA., Sept. 18.—In the case of the state against the Central of Georgia Railroad Company, brought to prevent the latter from buying the Estanten branch, a short road in this state which competed with the Central at some points, on the ground that thereby a monopoly was created, Judge Hart to-day rendered a decision in favor of the road. The case hinged upon the interpretation of a clause in the state constitution which prohibits railroad combinations havins, or intended to have, the effect of lessening competition. A decision adverse to the road, it is said would have been followed by litigation involving two-thirds of the railroad mileage of Georgia.

The arguments in the Kansas City, Pitisburg Gulf injunction case, to restrain the trans-Missour roads from canceling traffic arrangements and tariffs will be heard on Thursday in St. Louis before Judg Thayer. SPRINGFIELD, ILL., Sept. B.—The secretary of state issued articles of incorporation to the Terre Haute & Southern Railroad Company. It is proposed to construct a line of railway from a point in Clark county, Ill., on the Indiana state line, to a point on the Mississippi river in Alexander county. The incorporators and first board of directors are: B. F. Jehnston and P. M. Johnston, of St. Elmo, Ill.; J. W. Griswold, of Litchfield, Ill.; G. T. Turner, of vandalia, Ill., and John H. Biensing, of St. Louis, Me. The capital stock of the corporation is \$50,000 and the principal office is to be located at St. Elmo, Ill.

# Texas Roads Combine.

AUSTIN, TEX., Sept. 18.—It was learned to-night from a reliable source that the Golf, Beaumont & Kansas City and the Gulf & Interstate railways have entered into a traffic agreement which will result in the joint operation of both roads. The affiliation means the early compless of the Gulf, Beaumont & Kansas City road to Shieveport and the development of the oil and iron resources of San Augustine and Sabine counties and the coal of Sheiby county. May Locate Shops in Paola. PAOLA, KAS., Sept. 18.—(Special.) General Manager Doddridge, of the Missouri Pacific, spent two days in Paola last week. He said that the purpose of his visit was to invest in a number of Miami county farms. It is said that the object of his visit is to locate shops at Paola. He left here on Saturday night, but will return to-morrow.

President Robinson III. CHICAGO, Sept. 18.—D. B. Robinson, president of the St. Louis & San Francisco railroad, and one of the best known railroad men in the West, is ill at the Auditorium hotel. He was stricken a few days ago, but no word of the serious condition was allowed to creep out locally. His condition to-night was said to be improved.

Switch Shanty Secrets.

John C. Collins, general manager of the Port Arthur Channel and Dock Company, at Port Arthur, is expected in Hannes City in a few days.

The Western Trunk line committee at its next meeting will consider a proposition to make the 80 cent scale of rates, New York to the Missouri river, apply via canal, lake and rail.

The rates on export grain from the Mississippi river to the Atlantic seaboard advanced yesterday. The Santa Fe, which gave notice of a corresponding advance to Galvesian, withdrew the notice and the old rates remain in effect.

The Mobile & Ohio railroad is distributing a commercial directory of Cuba compiled by the Mobile chamber of commerce. It is a complete compendium of information as to ocean rates, grain and produce dealers and other information valuable to commercial interests doing business with Cuba.

### HARKLESS AWAY FROM HOME. terview at Washington on

Missouri Politics. James H. Harkless, who is in the East, is quoted by the Washington Post in the following interview:

"It is the rural vote that makes Missour a Democratic state," said Mr. James Harkless, a prominent lawyer of Kansas City last evening at the Shoreham. "Our citles and large towns are all reliably Republic-an. St. Louis, Kansas City, St. Joseph. I will concede that the Missouri Demgrandfathers did. But while I am a partisan. I will concede that the Missouri Democracy has some very strong men and able leaders. Ex-Governor Stone is, in the opinion of men who know him well and who are competent judges, one of the brightest intellects in the West, and certainly it would be hard to find his superior as a political manager. He is the coming man in his party, and his admirers insist that he will head the ticket in 1904.

"It looks as though the nomination of Mr. Dockery for the governorship by the Democrats was as good as settled. His opponent, Mr. Ball, has some ability, but he is not in favor with the more progressive element of his party, and Dockery's prestige, through his long and useful service at Washington, will bring him out an easy winner."

# Gratitude to France.

In these "Drevfus days," when all the world ! criticising France, we are by some called ungratefu to do so on account of the great debt of gratitude said to be due her by us for her assistance during our "war of Independence." I would like to ask you our "war of Independence." I would like to ask you a couple of questions in regard to that debt. Was it the French people who voluntarily came to our assistance, or was it their boss, Louis XVI., who they a few years subsequently beheaded? Was it the ardent love of the French for the Americans or was it their batter hatred of England that brought them to our side? And again, had we then been fighting the Spaniards for our independence, would we have had the assistance of our so-called aister sepublic? Individuals do not make a nation. I think it can be truly said that General Lafayette was patriotic (if we can call any man patriotic who is not fighting for his own country); perhaps it would be better to say General Lafayette was fighting for the love of liberty, and is deserving of a monument, and there are other individuals also deserving of monuments. One man in particular comes to my mind just now as I am writing who never drew a sword nor shouldered a musket in our behalf, yet is as deserving on cause in the house of commons day by day, and on one memorable occasion ended an impassioned speech in our behalf with the following words: "If I was an American, as I am as Englishman, I would never lay down my arms till I gained my independence!" a couple of questions in regard to that debt. Was It lay down my arms till I gained my independence Never! never! never!" Why not get the children t subscribe for a manument to him in London and La

ayette in Paris;
The children should know what friends we had in
ur time of need, irrespective of nationality.
